

Based on Naval Intelligence Handbook 1940's (b), Iranian State Rlys PTT Tehran-Razi September 1971/summary PTT Sept 1973 (c), Official Railway Map 1975 (c+)* and Iranian Islamic Republic Rlys PTT August 1996 (d)(prepared by S. Rachdi). * courtesy John Yonge. Additional information from Summary PTTs November 1963 (t), April 1975 and 1971 Map (m). Due to lack of detailed timetables, this list is mainly based on secondary sources. This, combined with the many variations in the spelling of Persian names in the Roman alphabet (with differences between maps & TTs of similar date) has resulted in many inconsistencies. Ref c+ given only where station is either not shown or spelling differs from that in the 1971/73/75 TTs. The 1940's Handbook gives 1 or 2 alternative spellings for many stations. The first version is shown in this list, unless one of the others is spelt exactly as in the later TTs or maps.

Former/alternative names: [] Distances in kilometres. Gauge 4' 8½" unless noted. Some locations reference b or c+ may not be/have been served by passenger trains.
