

PASSENGER STATIONS & STOPS

Private Railways and other non-JNR Railways (550-683) (excludes lines in the Tōkyō and Osaka/Nagoya/Kobe/Kyōtō Metropolitan Areas, see SL 301 & 302).

Lines in alphabetical order of official company/line names. Note: this list is considerably less complete than my other Japan lists, mainly due to unavailability of the Romaji spellings for many closed stations. Further research in progress

Only urban tramways still operating or closed since c.1985 (if full stop information is available) are included

Based on Official Railway Station List 1892 (z), Government Rly TTs (t) 1914/1915 (a), 1928 (b), 1933/1935map/1938 (c), 1968t/JNR Official Map 1964 (d) & current TTs (f). Also, 1918t(q), 1923t, Tetsudo Journal 1997 (transliterated into Romaji by Leroy Demery)(q), Rail Maps of Tōkyō Area, Electric Rlys of Japan (r), Japan by Rail and Wikipedia. #from Histories

Former names: [] Distances in kilometres Gauge 3' 6" unless noted tm = terminus

Certain non-passenger locations shown in italics thus: (name);

'n' before consonants often shown as 'm' as pronounced (e.g. 'nm' as 'mm'). 'n' is the more correct, but both versions appear erratically in timetables, maps (e.g. the Tokyo Area Rail Map shows 'm') and on station nameboards.

Kita: north; Minami: south; Higashi: east; Nishi: west; Shin: new; Kami: upper; Shimo: lower; Naka: middle; Chūō: central; Onsen: spring; Mae: in front of; Eki: station; Guchi: gate; Bashi/Hashi: bridge; Machi/Chō: town; Shi: city

op. opened; cl. closed; rn. renamed; rl. relocated; tm; terminus; all dates refer to passenger service;

+ names of closed stations translated using Google - some names may be incorrect, e.g. wrong "reading" of the Kanji symbols, names that could not be translated or are translated into literal English, Pin-Yin (Chinese) etc; correct Romaji names required.
