

Based on Public Timetables July 1926, May 1938, May 1960, June 1975, June 1984 and May 1995, Österreichisches Kursbuch 1914 and Working TT March 1987. Additional information from 1930, 1955, 1966, 1983 & 1993 TTs, and from Hans Schönborn. All public timetables show station names in both the Greek and Roman alphabets. Roman spellings have varied over the years, often erratically. Many names in the 1926 TT were French in format but had reverted to Greek style by 1930. English has now replaced French as the official second language and from 1995 some Roman spellings have been changed to a more "English" format.

The Working Timetable, which includes many request stops not shown in the Public Timetable, is in Greek only. Their names have been transliterated letter by letter generally as per Collins Dictionary, but with some differences to reflect apparent usage for place names viz. Γ, Υ = G (before consonants), gh (before some vowels), Η, Ϟ = I, i; Ξ, Ϝ = X; Y, u = i (or u after o only), from 1995 also y; X = Ch Μπ: strictly = Mp, but sometimes given as B in timetables. V = f or v after vowels.

Distances in kilometres. Former names: [ ] Gauge 1.0m (unless noted)

a. 1938 TT. b. 1960 TT. c. 1975 TT. d. 1984 TT. e. 1995 TT. e+. 1995 TT, no trains call  
\*. stations/request stops only shown in 1987 Working TT. Many of these were open at earlier dates and are still in use, but are not shown in most public timetables.

\*\* locations shown in 1987 WTT but with no passenger service. These are shown in this list as it is likely these were request stops, now discontinued.

f. transliteration of Greek names in 1987 TT. # extra request stops from 1995 WTT.
