

PASSENGER LINES - STATIONS & STOPS

HS1, South Eastern & Chatham (SEC) (1-39), London Brighton & South Coast (LBSC)(40-68), London & South Western (LSW)(70-127), Somerset & Dorset Joint (SDJ)(130-133), East London (ELR)(135-137) & Other Rlys (140-165).

For **Isle of Wight** see separate list. **West London Joint**, see LMS list, table 76.

Based on Bradshaws Guides (Brad), company timetables and my own research, with extra information from the RCHS Chronology (Quick), Clinkers Chronology, London Railway Atlas (Brown), Atlas of the Southern Rly (Harman/Nichols), Pre-Grouping Atlas (Ian Allan), Private & Untimetable Railway Stations (Croughton), GB Rail Atlas (Baker), Closed Passenger Lines of Great Britain 1827-1947 (Greville)(RCHS), Passengers No More (Daniels), Southern Railway Halts (Kidner), Railways of Great Britain Historical Atlas (Cobb), Branch Line News & other publications.

The **Great Britain Railways** tables are set out in 7 separate Lists based on the 4 major companies Nationalised in 1948 (Great Western; London Midland & Scottish; London & North Eastern; Southern), London Transport, Wales & Scotland) The 4 major companies are sub-divided into the companies amalgamated at Grouping in 1923.

U: **unadvertised** or locally advertised station with purpose.

h: **heritage railway stations/halts;** b: British/National Rail (BR/NR) or predecessor stations on lines that became heritage railways; in general only heritage railways operating wholly or in part on former BR etc lines are included; a few others not on former BR tracks are included if considered to offer an 'A' to 'B' passenger service.

j: Croydon Tramlink (CT) stops located on former BR etc lines. (b: BR etc stations). For Croydon Tramlink lines see LT list.

Not included: most funiculars, cliff rlys, people-movers & miniature rlys; station name "for" and county suffixes; locations where railway workers dropped off for routine or emergency work; most temporary platforms for depot open days, meetings, VIP visits etc; ticket platforms (for ticket inspection) unless evidence found of official use by alighting or boarding passengers; points reached by rail enthusiasts excursions; garden & estate private rlys for invited guests.

References to the other UK lists (>) with table number: **GW:** Great Western; **LMS:** London Midland & Scottish; **LNE:** London & North Eastern; **LT:** London Transport; **SC:** Scotland; **WA:** Wales.

Connections (shown thus: >, or >>) to other lines are only included if used by scheduled passenger services (past and present). Examples of obscure and short lived services using these connections are given. Connections only used for engineering works & emergency diversions and chartered trains are generally not included.

Bradshaw sometimes added suffixes to station names that were not part of the station name. It is generally not possible from timetables to determine when these are part of the station name and most are shown in these lists.

Explanatory text and selected operational & infrastructure locations are shown in bracketed italics.

Stations currently open for passengers shown in bold. All other stations closed to advertised passenger services.

Opening, closing, relocation and renaming dates, "for" & county station name suffixes, depot open day services, background information and source references, see Railway Passenger Stations in Great Britain, a Chronology by Michael Quick, available free on-line from the Railway & Canal Historical Society (RCHS) web-site.

(date)t/w: company public/working timetables. Distances in Miles; Gauge 4' 8½" unless noted;

**** I .etc :** refer to sections of line diverted, or alternative routes between these points, details given at end of the table.

Former names : []- usually only shown the first time the station appears in this list. *pass?* passenger service?

99. SOUTHAMPTON DOCKS**Eastern Docks:**

Boat trains operated to the many Transit Sheds located around the Eastern Docks and on the Itchen & Test riverside quays. The Eastern Docks comprise the Inner, Outer (later Princess Alexandra Dock), Ocean, Empress & Prince of Wales Docks. 25" OS maps 1907/1930 show passenger transit sheds alongside all of these docks and quays. Specific names were given to certain locations, as below.

These are shown in alphabetical order from Dock Gates
