

This publication lists all routes maintained as passenger lines, which do not have a publically advertised passenger service operating on an all-year basis. Also shown are routes, which although used on a regular and often frequent basis, are difficult to identify from the public timetable.

Timetable trains using these routes are listed (for actual dates of operation appropriate timetable, or Motorail publicity). Where it has been possible to indentify a reasonable flow of special excursions (either publically advertised or private charter) operating over a certain route, this has also been shown. A certain amount of licence however must be allowed in this part of the list, as on many occasions an alternative route may also exist, the one shown being the route 'normally' used. Special services between points served by Summer Seasonal trains would normally operate by the same route, but due to shortage of staff in certain areas (e.g. London) it is often necessary to run special trains by other routes. The points mentioned for special trains, also means trains via those points from stations beyond.

The following standard notes apply :-

- |   |   |   |
|---|---|---|
| C - Motorail Train  |   | D - Dated service                                 |
| N - This train is not advertised in the public timetable; |   | subject to alteration.                            |
| M - Mondays   | ) | plus .... X - Excepted<br>..... O - Only          |
| T - Tuesdays  |   |   |
| W - Wednesdays  |   |   |
| Th - Thursdays  |   |   |
| F - Fridays   |   |   |
| S - Saturdays   | ) | e.g. FO = Fridays Only<br>SX = Saturdays Excepted |
| SUN - Sundays Only  |   |   |

Where no indication is given, a train runs on Mondays to Saturdays, throughout the period of the timetable.

Sunday Diversions : To facilitate track maintenance and other engineering work on main lines, certain secondary routes are used on a semi-regular basis for Sunday diversions. These diversions follow a regular pattern, and depending on the route involved, start either late Saturday evening or early Sunday morning and will normally finish in time for Sunday late afternoon and evening services to run normally.

Details of the routes used, where that route does not carry a regular timetabled passenger service, are shown, and the 'normal' times of the blockage, if known. These blockages do not operate every weekend, only probably up to 20 Sundays per annum.

\* Advance advice of engineering operations and special trains travelling  
\* over 'Unusual Routes', if known prior to publication, is given to  
\* Branch Line Society members, through the auspices of the Society's  
\* twice-monthly news-sheet.

Further Copies : Additional copies of this publication can be obtained from Mr D. M. Groves, 33 Henley Drive, Timperley, Altrincham, Cheshire WA15 6RY. Please send a PO for 20p and a large stamped addressed envelope.

Supplements : It is expected that supplements to this publication will be issued during July and October 1975 and January 1976. These will automatically be issued to all Branch Line Society members along with Branch Line News; any non-member who wishes to receive these supplements should send three foolscap, stamped addressed envelopes, to Mr Groves (address above), who will then be pleased to despatch the supplements shortly after publication.
