

This publication lists all routes maintained as passenger lines which do not have a publically advertised passenger service operating throughout the year. Also shown are routes, which although used on a regular and often frequent basis, are difficult to identify from the public timetable.

Timetable trains using those routes are listed (for actual dates of operation, see appropriate timetable or Motorail publicity). Where it has been possible to identify a reasonable flow of special excursions (either publically advertised or private charter) operating over a certain route, this has also been shown. A certain amount of licence must be allowed in this part of the list, as on many occasions an alternative route may also exist, the one shown being the route normally used. Special excursions between points served by Summer Seasonal services can normally be expected to traverse the same route, but due to staff shortages in certain areas, it is often necessary to run special trains by other routes. The points mentioned for special trains also mean trains via these places to and from stations beyond.

The following standard notes apply :-

C - Motorail train

D - Dated service

N- This train is not advertised in the public timetable and is subject to short notice alteration.

NRU - No regular use identified.

M - Mondays

T - Tuesdays

W - Wednesdays

TH - Thursdays

F - Fridays

S - Saturdays

plus

....

X - Excepted

O - Only

e.g.

FO = Fridays Only

SX = Saturdays Excepted

SUN - Sundays Only

Where no indication is given, a train runs Mondays to Saturdays, throughout the period of the timetable.

SUNDAY DIVERSIONS : To facilitate track maintenance and other engineering work on main lines, certain secondary routes are used on a semi-regular basis for Sunday diversions. These diversions follow a regular pattern, and depending on the route involved, start either late Saturday evening or early Sunday morning and will normally finish in time for Sunday late afternoon and evening services to run normally.

Details of the routes used, where that route does not carry a regular timetabled passenger service, are shown along with the times of a normal 'blockage', if this is known. These blockages do not operate every weekend, only probably up to about 20 Sundays per annum. Certain services are shown in the following lists as running via the alternative route. This is the 'booked' route of these trains, but they are subject to diversion for engineering work in the same way as other Sunday services and may well be diverted via the normal weekday route.
