

Passenger Train Services over Unusual Lines

listing regular passenger trains over obscure rail routes in the British Isles

2022

Compiled by **Richard Maund**

This page was first uploaded on 28 December 2021
Up-dated on 4 January 2023

For **Explanation of references** and other general information: please refer to the **Introduction**.

Unless otherwise indicated, trains operated from Sunday 12 December 2021 until Saturday 10 December 2022. All dates quoted were inclusive. The services shown represent the 'permanent' timetable plan for the period under notice, but services and timings were subject to further and short notice alteration at any time - particularly over the Christmas/New Year period and at public holiday weekends. From mid-December 2021, many operators' services were subject to amendment by cancellation on account of non-availability of staff through covid isolation and strikes; no general attempt has been made to reflect such changes. Further such changes were introduced from 17 January - again, no attempt has been made to reflect all these changes **unless** total service withdrawal over a route is known to have been involved. Resumption started to appear from late February and continued with the timetable change from 15 May 2022, although some services were still subject to revision. TransPennine Express weekend services were subject to long-running industrial dispute, while all their services during the latter half of the year were subject to extensive cancellations ascribed to staff sickness and training backlog. Scotrail services reduced by one third from 23 May until 19 July 2022. Avanti West Coast and Northern services were subject to various reductions during the autumn - over and above the effects of strikes by rail staff.

Some dates for diversionary use are given but these do not purport to be fully comprehensive. Some unusual 'unsocial hours' routeings were to allow for engineering possessions on a more direct route - to which trains may have reverted when there was no engineering work.

Briton Ferry, Court Sart Junction / Up Flying Loop Junction - Hendy Junction (Swansea District line)

Occasional opportunities...

The following sections of preserved railways over which no regular public services operate are known to have been used occasionally by special services open to the public. Unless specially noted below, there does not appear to be *consistent* or *regular* public use

Embsay - Bow Bridge loop [Embsay & Bolton Abbey Steam Railway]: trains use this section if stock blocks the loop line at Embsay.

Moor Road (Leeds) station - Balm Road loop [Middleton Railway]: the railway is authorised to operate passenger trains over this line on a limited number of occasions each year. On two weekends in recent seasons trains have used this section, some trains being freight trains carrying passengers. This was to have applied for Heritage Weekend, 10/11 September 2022, but was cancelled on account of HM Queen Elizabeth's death.

Barrow Hill Roundhouse Railway Centre - connection with Network Rail; Roundhouse platform - Springwell [Barrow Hill Engine Shed Society]: the Springwell service usually operates on event days

Swithland Sidings - Nunckley Hill Platform [- Mountsorrel] [Mountsorrel & Rothley Community Heritage Centre]: as advertised on their and Great Central Railway websites. From autumn 2019

services have normally been restricted to the Swithland Sidings - Nunckley Hill Platform section, with no workings to Mountsorrel. No service in 2021 or 2022 because of damage to trap points at Swithland. The "Branchline" element was dropped from their 2022 "Railcar & Branchline weekend" (9 to 11 September 2022), although the Railcar Weekend and Beer Festival ran as planned.

Swanwick Junction - end of line at Greenhill [*Midland Railway Trust*]

Tyseley Locomotive Works internal trackage [*Tyseley Locomotive Works*]: on works open weekends.

Norchard Low Level - Middle Forge Junction ground frame [*Dean Forest Railway*]: may be used on special events days - particularly on those when separate services are advertised: Norchard (high level) ⇔ Parkend and Norchard (low level) ⇔ Lydney Junction. Santa services in 2022 operated from/to the high level platform, apart from the last train which returned to low level. Most regular trains at Norchard use the high level platform on the through line.

Dereham - Hoe Road [*Mid Norfolk Railway*]: regular service ran (in lieu of service to Wymondham Abbey) from 4 May until 28 July 2022 inclusive, but this section is normally for special events only.

Sheringham North Norfolk Railway station - Sheringham Network Rail station [*North Norfolk Railway Mainline Cromer Dining Trains*]

Long(ue)ville Junction - Fletton Junction [*Nene Valley Railway*]

Mangapps Railway Museum Southminster Road branch [*Mangapps Railway Museum*]

Norton Platform - Bishop's Lydeard [*West Somerset Railway*]: a service Taunton ⇔ Bishop's Lydeard did not operate in 2022 - see entry in *England - South West* section above.

Barnstaple Junction (Norton Fitzwarren) – Pontispool Bridge stop block [*West Somerset Railway*]: a shuttle service may operate in conjunction with West Somerset Railway Association special events such as Steam & Vintage Rally.

Horsted Keynes - limit of former line towards Ardingly [*Bluebell Railway*]

Bodiam - Junction Road and Robertsbridge - Robertsbridge Northbridge Street [*Rother Valley Railway*] presently out of use until further notice

Goosefield Sidings - Haven Street [*Isle of Wight Steam Railway*]

Llangollen Goods Junction - Pentrefelin Sidings gate and to former Goods yard (Diesel road) [*Llangollen Railway*]: look for September Diesel Weekend brake van trips (did not operate in 2022)

Downpatrick - Loop Platform - Magnus's Grave (former King Magnus's Halt ("King's Halt")) - present end of line towards Ballydugan (Ringreagh) [*Downpatrick & County Down Railway*]: the use of some part of this line - to serve the Loop Platform – used to apply for their Halloween and Christmas services, but has not done so since 2019 (and did not do so in 2022).
