

# Passenger Train Services over Unusual Lines

## listing regular passenger trains over obscure rail routes in the British Isles

### 2024

For **Explanation of references** and other general information: please refer to the **Introduction**.

**Unless otherwise indicated, trains operated from Sunday 10 December 2023.** All dates quoted are inclusive. The services shown generally represent the 'permanent' timetable plan for the period under notice, but services and timings were subject to further and short notice alteration at any time - particularly over the Christmas/New Year period and at public holiday weekends.

Some dates for diversionary use are given but these do not purport to be fully comprehensive. Some unusual 'unsocial hours' routeings were to allow for engineering possessions on a more direct route - to which trains may have reverted when there was no engineering work.

## ENGLAND - WEST MIDLANDS

**Stone Junction - Colwich Junction (66) CB03**

Trains Stoke-on-Trent ⇔ Euston not shown to call at Stafford use the direct line

**Searchlight Lane Junction - Heamies Bridge** (065,076,220) CB03

The Up and Down Fast lines and the Up Slow line follow their established route through Norton Bridge but the Down Slow line is segregated – from Little Bridgeford Junction - on a separate alignment well to the west (there is no "junction" at Heamies Bridge where the Down Slow rejoins its old alignment). At Stafford, if the signal at the Down end of platforms 1, 3, 4 or 6 shows a "clear" aspect with route indication "S" (or platform 5 shows a "clear" aspect with no "feather") this indicates use of Down Slow line - a train running direct to Crewe would then use this route.

**Principal use:** Avanti West Coast hourly service Euston → West Midlands → Preston or beyond, departing Stafford xx.47. Also northbound *Caledonian Sleepers* (except when diverted via East Coast route - see *Camden Road Central Junction - Copenhagen Junction* entry)

**Norton Bridge Junction - Yarnfield Junction (Norton Bridge East Chord)** (076) CB03

Trains Stafford ⇔ Stoke on Trent - especially when running to or from the Birmingham line - normally use the double track flyover route between Little Bridgeford Junction and Yarnfield Junction, but the former Up line is retained as a reversible single track, used by the following:

### Occasional opportunities...

**The following sections of preserved railways over which no regular public services operate are known to have been used occasionally by special services open to the public.** Unless specially noted below, there does not appear to be *consistent* or *regular* public use.

**Embsay - Bow Bridge loop** [*Embsay & Bolton Abbey Steam Railway*]: trains use this section if stock blocks the loop line at Embsay and during annual Diesel Gala (2024 dates: 30 August to 1 September 2024).

**Moor Road (Leeds) station - Balm Road loop** [*Middleton Railway*]: the railway is authorised to operate passenger trains over this line on a limited number of occasions each year. On two weekends in recent seasons trains have used this section, some trains being freight trains carrying passengers. Services have not run on the branch since 17 Sep 2023 and are not expected to do so until Moor Road level crossing is upgraded.

**Barrow Hill Roundhouse Railway Centre - connection with Network Rail; Roundhouse platform - Springwell** [*Barrow Hill Engine Shed Society*]: the Springwell service usually operates on event days

**Llangollen Goods Junction - Pentrefelin Sidings gate and to former Goods yard (Diesel road)** [*Llangollen Railway*]: look for Diesel Weekend brake van trips (usually September but not in 2024). *Check carefully because shuttles advertised only to 'Goods Junction' would not cover the inclined branch to the former Goods Yard.*

**Swanwick Junction - end of line at Greenhill** [*Midland Railway Trust*]

**Swithland Sidings - Nunckley Hill Platform – Mountsorrel Halt** [*Mountsorrel & Rothley Community Heritage Centre*]: as advertised on their and Great Central Railway websites

**Tyseley Locomotive Works internal trackage** [*Tyseley Locomotive Works*]: may operate on works open weekends (which resumed from 15 June 2024).

**Norchard Low Level - Middle Forge Junction ground frame** [*Dean Forest Railway*]: may be used on special events days - particularly on those when separate services are advertised: Norchard (high level) ⇄ Parkend and Norchard (low level) ⇄ Lydney Junction. Santa services in 2022 operated from/to the high level platform, apart from the last train which returned to low level. Most regular trains at Norchard use the high level platform on the through line – see entry in Regular services section, above. Brake van tours use the high level platform.

**Hayes Knoll – end of available track beyond South Meadow Lane level crossing** [[Swindon & Cricklade Railway](#)]: on Gala Days as advertised

**Dereham - Hoe Road** [[Mid Norfolk Railway](#)]

**Long(ue)ville Junction - Fletton Junction** [[Nene Valley Railway](#)]: shuttle services as advertised (2024 dates: 7 and 8 September 2024)

**Mangapps Railway Museum Southminster Road branch** [[Mangapps Railway Museum](#)]

**Barnstaple Junction (Norton Fitzwarren) – Pontispool Bridge stop block** [[West Somerset Railway](#)]: a shuttle service may operate in conjunction with West Somerset Railway Association special events such as [Steam & Vintage Rally](#) (2024 dates: 3 and 4 August).

**Worgret Junction – Norden** [[Swanage Railway](#)]: through excursion trains to Swanage as advertised.

**Horsted Keynes - limit of former line towards Ardingly** [[Bluebell Railway](#)]

**Bodiam - Junction Road and Robertsbridge Junction station - Robertsbridge Northbridge Street** [[Rother Valley Railway](#)]: on Gala weekends as advertised (2024 dates: 1 and 2 June, using Robertsbridge section)

**Downpatrick - Loop Platform - Magnus Grave (former King Magnus's Halt ("King's Halt")) - present end of line towards Ballydugan (Ringreagh)** [[Downpatrick & County Down Railway](#)]: used when advertised by special event services. However, the railway suffered severe flooding in October/November 2023 so no services used this line in 2024.
